Introduction	<p>The Department of Psychiatry at RSCM GMC &amp; CPRGH, Kolhapur has been growing with heart and purpose since its beginning in 2001. From day one, we have stood beside our community—offering compassionate outpatient and inpatient mental-health services.</p> <p>A joyful milestone arrived in March 2016, when we stepped into our very own indoor premises, creating a comforting space where healing could truly flourish.</p> <p>Carrying forward the same spirit of care, we started our <b>Specific Learning Disability Clinic</b> in 2016, dedicated to nurturing young minds and helping children shine in their own unique ways.</p> <p>In 2023, the Department of Psychiatry at RSCM GMC Kolhapur commenced its MD Psychiatry programme with the addition of two postgraduate seats. This development represents a meaningful step forward in advancing psychiatric education, fostering academic excellence, and contributing to improved mental-health services.”</p> <p>“In September 2024, we launched a Tobacco Cessation Centre under the Ministry of Social Justice and Welfare, marking a proactive step toward combating addiction and advancing public health.”</p> <p>In 2024, we expanded our embrace even further by launching a dedicated <b>Addiction Treatment Facility (ATF)</b>, established with the kind support of the <b>Ministry of Social Justice &amp; Empowerment, Government of India</b>, to provide structured, evidence-based, and hope-filled treatment for individuals on their journey to recovery.</p> <p>In 2025, a cutting-edge Mental Health Lab was launched, featuring the latest equipment and a full spectrum of tests essential for modern psychiatric practice. This advancement marks a major leap forward in delivering precise, evidence-based mental-health care.”</p> <p>Together, we continue to grow, care, and create spaces where every individual feels supported, understood, and valued.</p>
