| Introduction     | This is a broad speciality department for respiratory diseases. We take care of all diseases related to respiratory system. We have well established OPD with All facility for TB under one roof. We also have 30 bedded indoor facility & 10 bedded well equipped Modular Intensive Respiratory Care Unit. We also have well equipped Pulmonary Diagnostic Centre. We are implementing National Tuberculosis Elimination Program in our college successfully since 2001. We have started DRTB Centre in our institute in 2015. We also started Pulmonary Rehabilitation Centre in 2024. We also have PG Course in our department i.e. M.D (Respiratory Medicine).                                   |        |  |         |        |        |    |                             |    |  |  |  |

**Research**

Detailed list of research work / research project conducted / ongoing in the following format [2018 onwards].

| <b>Sr. No.</b> | <b>Research Title</b>                                                                                                                           | <b>Research By</b>                       | <b>Guide</b>          | <b>Year</b> |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|-----------------------|-------------|
| 1.             | A study of use and safety of Fibreoptic bronchoscope in critically ill patients in intensive care units at our tertiary care hospital           | Dr. A. A. Saibannavar                    | —                     | 2018        |
| 2.             | Retrospective analysis of chest HRCT findings in coronavirus disease pandemic(Covid19)                                                          | Dr. A. A. Saibannavar<br>Dr. Swenil Shah | —                     | 2021        |
| 3.             | Assessment of Pulmonary Function Impairment in treated sputum positive Pulmonary Tuberculosis patients                                          | Dr.Prakash Salve                         | Dr. A. A. Saibannavar | 2021        |
| 4.             | Pulmonary Tuberculosis induced coagulation disorder – A Case Series                                                                             | Dr.Prakash Salve                         | Dr. A. A. Saibannavar | 2023        |
| 5.             | Linezolid associated peripheral neuropathy in patients with MDR/XDR tuberculosis                                                                | Dr. Gurjeet Kaur                         | Dr. A. A. Saibannavar | 2021        |
| 6.             | Subacute Invasive Pulmonary Aspergillosis.                                                                                                      | Dr. Karishma Patil                       | Dr. A. A. Saibannavar | 2022        |
| 7.             | Pleural Effusion Secondary To Pancreatic Diseases                                                                                               | Dr.Nischita R.,<br>Dr.Rupali Deshmukh    | Dr. A. A. Saibannavar | 2022        |
| 8.             | Study of Resistance pattern and treatment modifications in Drug resistant Tuberculosis patient in tertiary care hospital in western maharashtra | Dr. Gurjeet Kaur                         | Dr. A. A. Saibannavar | 2022        |
| 9.             | A study of cardiovascular manifestations in COPD patients                                                                                       | Dr. Vaibahv Mundhe                       | Dr. A. A. Saibannavar | 2022        |
| 10.            | Clinical profile of connective tissue disorder related ILD in a tertiary care hospital in western maharashtra,                                  | Dr. Nischitha R.                         | Dr. A. A. Saibannavar | 2023        |
| 11.            | Observational study about drug sensitive TB and Tobacco smoking                                                                                 | Dr. Rupali Deshmukh                      | Dr. A. A. Saibannavar | 2023        |
| 12.            | Clinical profile of bronchiectasis -A observational cross sectional study                                                                       | Dr. Mohd. Hamza Omer                     | Dr. A. A. Saibannavar | 2024        |
| 13.            | Etiology of pleural effusion in adults admitted in tertiary care hospital - A observational cross sectional study                               | Dr. Harshita Mittal                      | Dr. A. A. Saibannavar | 2024        |
| 14.            | Clinical & bacteriological profile of community acquired pneumonia : an observational study                                                     | Dr.Naresh Latpate                        | Dr. A. A. Saibannavar | 2025        |
| 15.            | Clinical profile of post tuberculosis obstructive airways disease in adults at tertiary care hospital in Maharashtra: An observational study    | Dr.Pruthviraj Kale                       | Dr. A. A. Saibannavar | 2025        |
